Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 24, 2013

Jocelyn Boyd  
101 Executive Center Drive, Suite 100  
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

South Carolina has many resources that offer us clean energy options.

To make good use of them, we need to hear from those who are ready to invest in this work. A public hearing that encourages discussion about ways to improve policies and regulations in our state that at present do not allow increased options for investment in solar energy.

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Mrs. Carol Barker  
5 Windy Cove Ct  
Hilton Head Island, SC 29926-2544
